SolarWinds Fast Facts

- **Provider of Network Management Software**
  - » Founded in 1998
  - » Headquartered in Austin, TX
  - » Publicly traded on the NYSE since May 2009
  - » More than 430 employees worldwide
  - » Over 97,000 customers in 170 countries

SolarWinds releases new Web-based Orion Network Performance Manager (NPM)

Michael Bennett becomes president and CEO; Austin headquarters established; launches Orion NetFlow Traffic Analyzer (NTA)

SolarWinds introduces Orion Application Performance Monitor (APM) and Orion Enterprise Operations Console (EOC) ; makes significant enhancements to Orion NPM and Orion NTA; launches Orion Network Configuration Manager (NCM), formerly Cirrus; establishes APAC headquarters in Singapore; 20,000th user joins thwack

TEK-TOOLS SOFTWARE

SolarWinds acquires certain assets of Tek-Tools Software, enters Storage Resource Management market; Kevin Thompson named president and Chief Exective Officer, Mike Bennett named Executive Chairman; Michael S Berry joins as Chief Financial Officer

Toolset

SolarWinds founded; introduces first Toolset

SolarWinds launches Cirrus Configuration Manager; Bain Capital and Insight Ventures invest

thwack_
SolarWinds surpasses 1 million user mark; unveils community site, thwack; establishes EMEA headquarters in Cork; acquires ipMonitor

SWI LISTED NYSE

SolarWinds named Network Management Partner for Cisco® EnergyWise; launches 10th version of Toolset; introduces Orion IP Address Manager; completes Initial Public Offering on the New York Stock Exchange, listed under "SWI"; launches Orion IP SLA Manager

Products

Solutions for Network and Applications Management

Orion
Enterprise-Class Network Management

Network Performance Monitor
Application Performance Manager
Network Configuration Manager
Network Traffic Analyzer
IP Address Manager
IP SLA Manager

ipMonitor

Entry-level Network Monitoring

Solutions for Storage and Virtualization Management

Storage Profiler, Virtual & Server Profiler, Backup Profiler

Solutions for Individual Network Engineers

Tools for Engineers

Engineer's Toolset, Kiwi and LANsurveyor
Solutions for Individual Network Engineers

Free Tools
Stand-alone Utilities and Management Applets

solarwinds

SolarWinds Strategy

We develop user-centric enterprise software that is:

■ **Simple to Use and Maintain**

- Windows-based
- Intuitive user interface
- Built-in real-world workflows
- Easy to customize

■ **Easy to Deploy**

- Downloadable
- Self-install and configure in minutes

■ **Powerful and Practical**

- Solves real-world user problems
- Scalable from one to >100,000 devices
- No shelf-ware

■ **User-Centric and Community Guided**

- Direct interaction
- Responsive to customer/ community feedback

FREE TOOLS — SUPERCHARGE YOUR NETWORK MANAGEMENT! 100% FREE. NO STRINGS ATTACHED.

Need some help defeating the forces of evil on your network? These free tools give you the super powers you need to save the day. Grab a few trusty sidekicks & get to work!

- **Free Tools for Network Engineers**
  - » **Meet our superheroes**
  - » Build by network engineers for network engineers
  - » Frequent updates of the Free Tools portfolio
  - » 17 free tools to get you started in network management
    - » Network Device Monitor, Network Config Generator, WMI Monitor, IP Address Tracker, IP SLA Monitor, Real-time NetFlow Analyzer, VM Console, Kiwi Syslog Server, Kiwi CatTools, Exchange Monitor, TFTP Server, and others

Ultimate Fan Culture

SolarWinds Czech

- **Biggest Engineering Team at SolarWinds**

  - » **2ND BIGGEST Office**

  - » Established in April 2008

  - » Over 70 employees and growing

  - » Technologies used

    - » C#/ASP.NET, MS SQL, Networking (SNMP, ICMP, Netflow, etc.)

    - » Developing Network & Application monitoring and management SW

  - » Agile software development process (SCRUM like)

  - » Daily use of English

  - » Innovative environment

  - » Friendly and informal atmosphere

solarwinds

Bachelor & Diploma Theses

- **Bachelor Theses**

  » Tracking of roaming clients in IPv6 based wireless networks *(taken)*

  » Network discovery and topology mapping in heterogeneous IPv4/IPv6 based networks *(taken)*

  » Performance testing and benchmarking in virtual environments *(taken)*

- **Diploma Theses**

  » System for testing network discovery of products in simulated environment

  » Methods of measurement of load in computer networks

  » Forecasting of future performance in computer networks

- **Summer internship**

  » Several intern positions were opened this summer (will repeat next year)
